

REGIONAL CENTRE RAGHUNATHGANJ

TRANSFORMING LEARNING COMMUNITY

The ever growing challenges of the developing world demands dynamic institutions to support and transform the societies. IGNOU, the largest educational institution in the country having established its Regional Centre (RC) at Raghunathganj in the year 2009 laid foundation for bringing academic inputs for the people of the region comprising of three districts namely Birbhum, Malda, and Murshidabad. Incidentally this is the only rural most backward region specific IGNOU RC. Many of the developed countries including neighboring China have established their academic institution in rural backward areas and we are able to see their development.

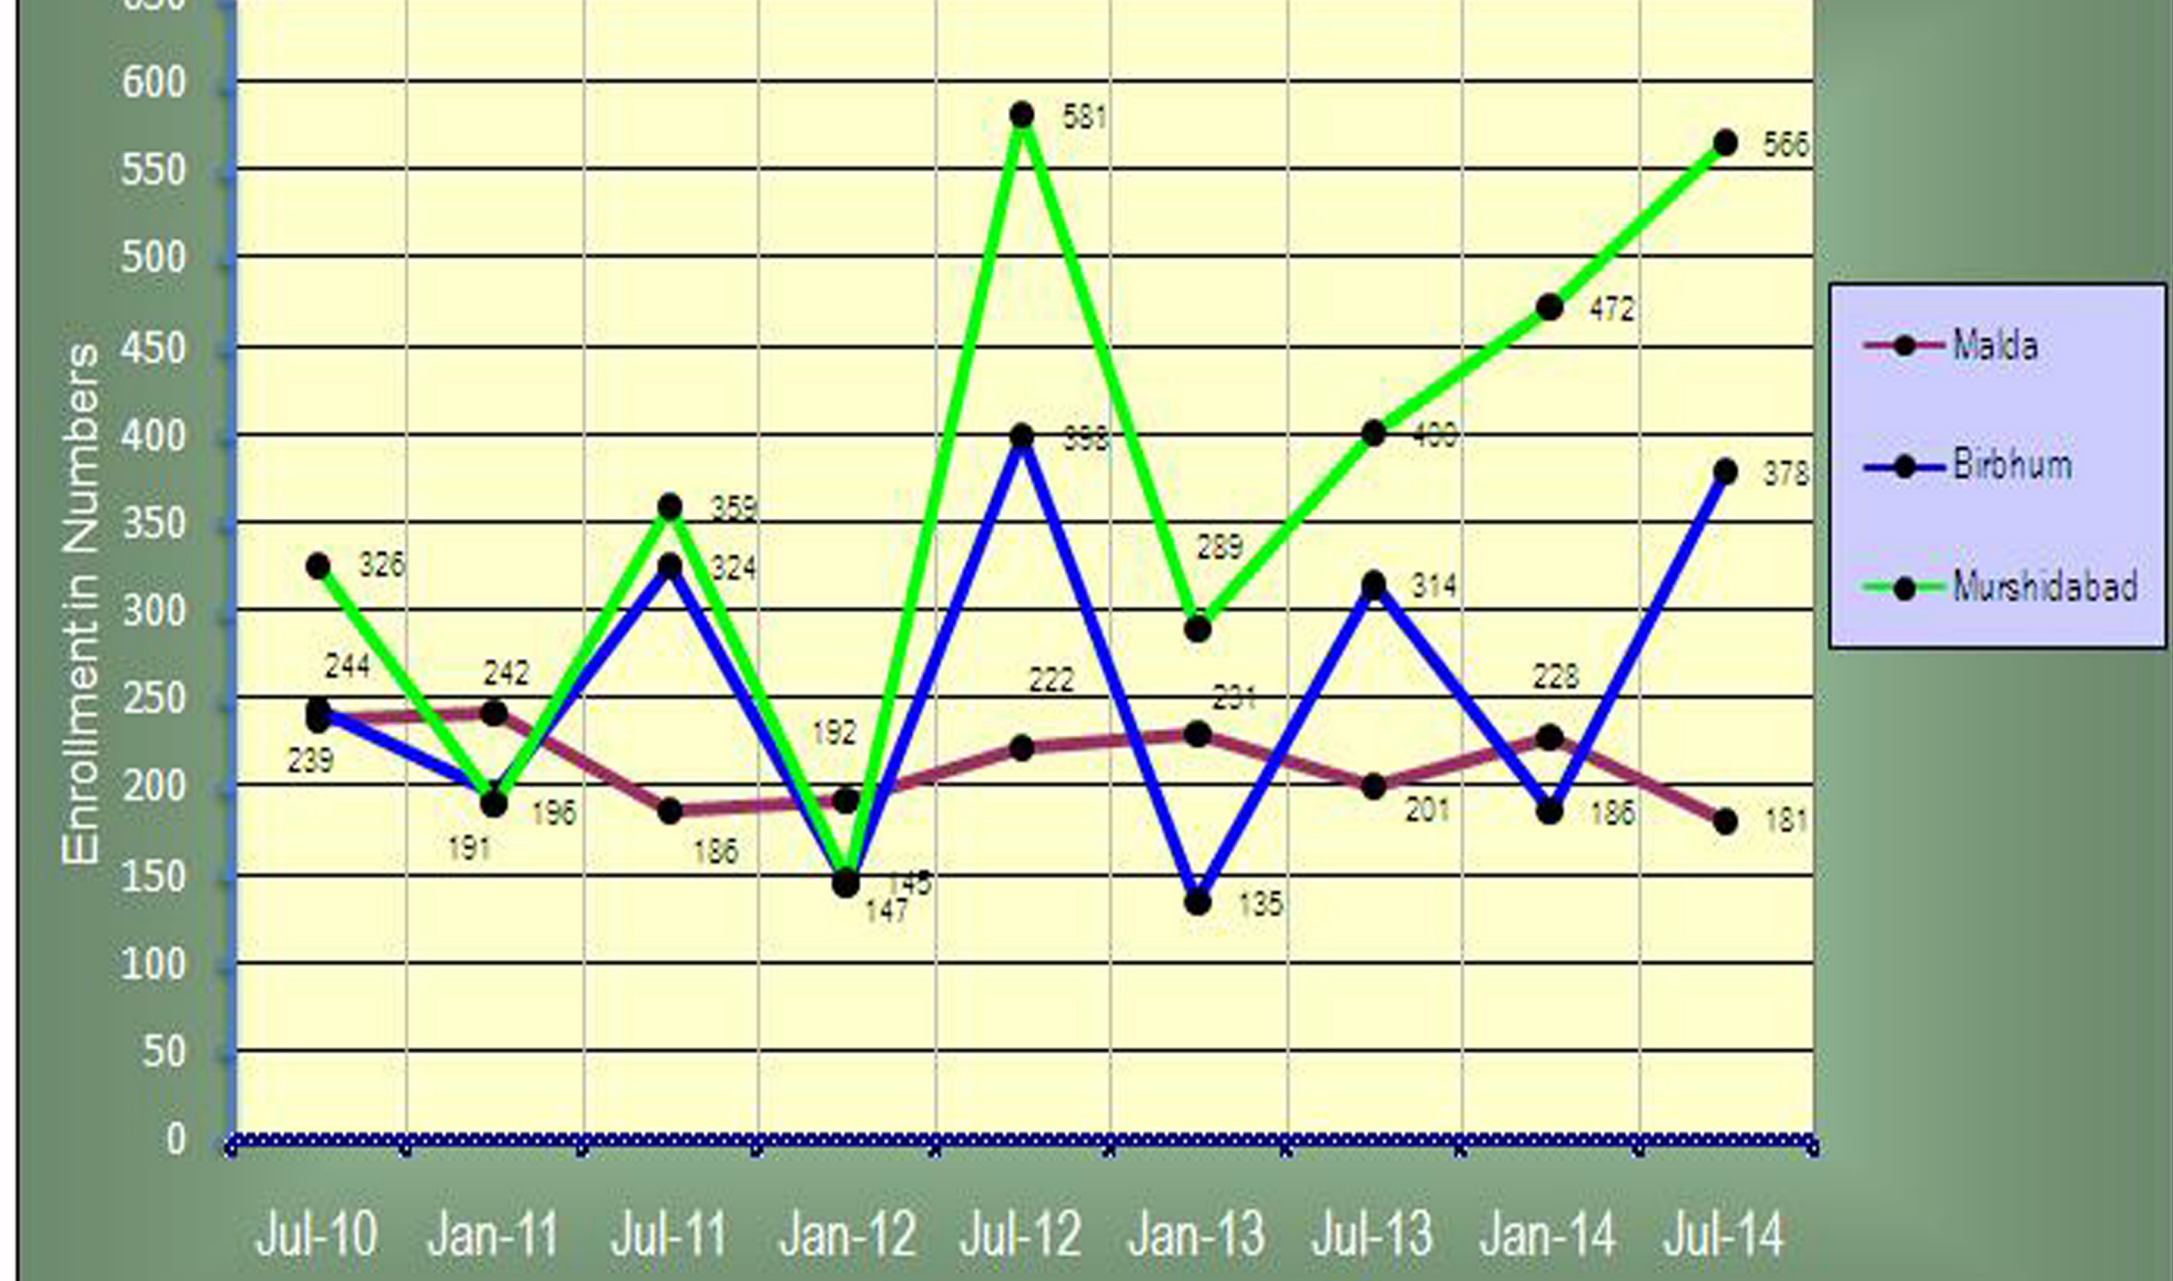

This only rural backward areas specific IGNOU Regional Centre is putting efforts to facilitate peoples of the region acquire better skills, qualifications, and compete with the rest of the world. Over the years of its presence besides having generated satisfactory level of enrollment, has also become popular. Yet there are lot many areas to be revisited so that a number of certificate and diploma programmes are also pursued. We earnestly feel that the information presented in different forms elucidate the vibrant Regional Centre despite being most disadvantaged in terms of MMC-Men, Material, and Connectivity. We hope kindled minds will appreciate this small beginning....
